

Data Literacy Empowerpoint (Foundation) Programme

[Course Code: 2316]

Duration: 18 hours

Programme Description

The “Data Literacy Empowerment Programme (DLEP®) Foundation” is offered to promote innovative information technology and enhance the data literacy training. The Programme aims to provide fundamental training and practice on the data literacy competence in workplace, how to effectively speak, think and act with data. The Programme will be designed and delivered by experts from the industry and will be provided for executives, engineers, practitioners, students, teachers, etc.

Certification

“Certificate of Attainment” will be issued to students who have passed the assessment and met the attendance requirements of the programme.

An additional chargeable option for digital credentials (digital badges and blockchain certificates for "Certificate of Completion") will be solely provided by OCHA.
